Notes for the Teacher

Why Diagnostic Testing?

Diagnostic tests are specifically designed to determine where a student should begin in the curriculum. Results from these tests give better direction for placement than a student's age or grade level since the course of study varies so much between schools and curricula.

What Portion of This Booklet Should a Student Complete?

This book covers four levels—100, 200, 300, and 400. Use this chart to decide which ones the students should work through.

Grade student is entering	Work through levels
1	Testing not needed
2	100
3	100-200
4	200-300
5	300-400
6 and up	*Use test booklet 500-800

How Should the Test Be Administered?

Time. This is not a timed test. Students may take as much time as needed. Give periodic breaks, at least five to ten minutes every hour, and more often for younger students. Ideally, testing should be spread over a two-day period. Test weariness gives unreliable test results.

Guidance. You may help students understand instructions; however, do not hint at answers.

Environment. Inform students that the test is important, but avoid a tense atmosphere. Help them to feel that the best they can do is good enough. Check comfort factors such as lighting and ventilation. Keep noise and other disturbances to a minimum.

Progress. Since concepts in Sunrise Edition are learned incrementally and spread throughout the year, the tests cover entire levels, not individual LightUnits. The activities in each test are grouped by concepts. The student should begin with the first concept and do as many activities as possible in each group.

How Do I Score the Test?

Using the answers in the teacher's manual, put a mark through the number of each question the student answered incorrectly.

Determine the number of activities done correctly out of the total for each level.

How Do I Then Determine Placement?

1. Fill in the **Diagnostic Test Summary** on page vii. If you are enrolled with Homeschool Plus at Christian Light Education, also fill in the second summary sheet on page ix. Tear out this perforated sheet and send it to Homeschool Plus and retain a copy for yourself. If you are not enrolled with Homeschool Plus, ignore the extra summary sheet.
2. **For Level 100.** If the student has 66 or more correct answers, he is prepared for Level 200. If fewer than 66 are correct, the student is not prepared for Level 200, and should do all or most of *Language Arts 100* before entering Level 200. If the number correct is 55 or more, check the test for an unusual weakness in one or more concepts. If most errors were made in one or two groups, perhaps some remedial work could adequately prepare the child for the next level. However, exercise caution. It is better to build confidence in the child by letting him move quickly through material at an easier level than to frustrate him with a higher level than he can efficiently manage.

The image shows a form titled "Diagnostic Test Summary Language Arts 100-400". It includes a small logo on the left and a line for "Name" and "Date". Below this, there are four rows for recording scores: "Level 100 ____ items correct", "Level 200 ____ items correct", "Level 300 ____ items correct", and "Level 400 ____ items correct". At the bottom, there is a line for "The student will begin with Level ____".

For Level 200. If the student has 70 or more correct answers, he should be ready for Level 300. If fewer than 70 are correct, the student is not prepared for Level 300, and should begin with *Language Arts 200*.

For Level 300. If the student has 70 or more correct answers, he should be ready for Level 400. If fewer than 70 are correct, the student is not prepared for Level 400, and should begin with *Language Arts 300*.

For Level 400. If the student has 70 or more correct answers, he should be ready for Level 500. If fewer than 70 are correct, the student is not prepared for Level 500 and should begin with *Language Arts 400*.

THE COW

The friendly cow all red and white,
 I love with all my heart:
 She gives me cream with all her might,
 To eat with apple tart.

She wanders lowing here and there,
 And yet she cannot stray,
 All in the pleasant open air,
 The pleasant light of day.

And blown by all the winds that pass
 And wet with all the showers,
 She walks among the meadow grass
 And eats the meadow flowers.
